

OPTIONAL DETERMINATION OF NON-SIGNIFICANCE (DNS) NOTICE MATERIALS

The attached materials are being sent to you pursuant to the requirements for the Optional DNS Process (WAC 197-11-355). A DNS on the attached proposal is likely. This may be the only opportunity to comment on environmental impacts of the proposal. Mitigation measures from standard codes will apply. Project review may require mitigation regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for this proposal may be obtained upon request.

File No.

SEPA Environmental Checklist

The City of Bellevue uses this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions

The checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully and to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions.

You may respond with "Not Applicable" or "Does Not Apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies and reports. Please make complete and accurate answers to these questions to the best of your ability in order to avoid delays. For assistance, see SEPA Checklist Guidance on the Washington State Department of Ecology website.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The city may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Background

1. Name of proposed project, if applicable

2. Name of applicant Dennis Crispin, Jr.

3. Contact person Dennis Crispin, Jr.

4. Contact person address 4833 Lakehurst LN SE Bellevue, WA 98006

5. Date this checklist was prepared 1/10/2021

6. Agency requesting the checklist City of Bellevue Development Services

Before December 31, 2021	
	subject to work window limits for lake WA per WA Fish and Wildlife
Do you have any plans for fut connected with this proposal?	ure additions, expansion or further activity related to or If yes, explain.
No	
List any environmental inform prepared, that is directly relat	nation you know about that has been prepared or will be
None known	
	tions are pending for governmental approvals of other
No	e property covered by your proposal? If yes, explain.
list any government approval	s or permits that will be needed for your proposal, if known.
None known	s of permits that will be fleeded for your proposal, it known.

12.	Give a brief, complete description of your proposal, including the proposed uses and the
	size of the project and site. There are several questions later in this checklist that ask you to
	describe certain aspects of your proposal. You do not need to repeat those answers on this
	page. (Lead agencies may modify this form to include additional specific information on
	project description.)
	install 1 freestanding boatlift with light-penetrating fabric canopy, one pier mounted
	PWC lift (as-built), and one buoy (as-built) for recreational use at the 15,000 sq ft+/- residential site
13.	Location of the proposal. Give sufficient information for a person to understand the precise
	location of your proposed project, including a street address, if any, and the section,
	township and range, if known. If a proposal would occur over a range of area, provide the
	range or boundaries of the site(s). Provide a legal description, site plan, vicinity map and
	topographic map, if reasonably available. While you should submit any plans required by
	the agency, you are not required to duplicate maps or detailed plans submitted with any
	permit applications related to this checklist.

What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results ir removing any of these soils.
Sand & gravel
Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.
no
Describe the purpose, type, total area and approximate quantities and total affected area of any filling, excavation and grading proposed. Indicate the source of the fill. none, does not apply
of any filling, excavation and grading proposed. Indicate the source of the fill. none, does not apply Could erosion occur as a result of clearing, construction or use? If so, generally describe.
of any filling, excavation and grading proposed. Indicate the source of the fill. none, does not apply

none	
	Compliance with BCC 23.76 Clearing and Grading Code
	Cloaning and Crading Code
- '	would result from the proposal during construction, the project is completed? If any, generally describe and wn.
None, does not apply	
Are there any off-site sources of e generally describe.	missions or odor that may affect your proposal? If so,
No, does not apply	
Proposed measures to reduce or o	control emissions or other impacts to air, if any.
None, does not apply	

Water

- 1. Surface Water
 - a. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Yes, Lake Washington

b. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Yes, install 1 freestanding boatlift with light-penetrating fabric canopy, one pier mounted PWC lift (as-built), and one buoy (as-built)

c. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

None, does not apply

d. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose and approximate quantities, if known.

No, does not apply

e. Does the proposal lie within a 100-year floodplain? <u>No</u>

If so, note the location on the site plan.

	No, does not apply
Gr	ound Water
	Will groundwater be withdrawn from a well for drinking water or other purposes? If so
	give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general
	description, purpose, and approximate quantities if known.
b.	Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals; agricultural; etc.). Describe the general size of the system, the
	number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.
	None, does not apply

э.	Water Runoff (including stormwater) a. Describe the source of runoff (including storm water) and method of collection and
	disposal, if any (include quantities, if known). Where will this water flow? Will this wa flow into other waters? If so, describe.
	None, does not apply
	b. Could waste materials enter ground or surface waters? If so, generally describe.
	No, does not apply
	c. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the si
	If so, describe.
	No
	Indicate any proposed measures to reduce or control surface, ground and runoff water, and drainage pattern impacts, if any.
	None, does not apply
	, assessed spp. 7

none, does not apply 3. List any threatened and endangered species known to be on or near the site. Salmon 4. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site, if any.	nts	hack the types of vegetation found on the cite:

		Possibly a Salmon outmigration rout
Proposed measures to preserve or enhance wildlife, if any.		Proposed measures to preserve or enhance wildlife, if any.
Adhere to all regulations and guidelines	4.	

5.	List any invasive animal species known to be on or near the site.
	None are known to be on or near the site
	gy and Natural Resources What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet th
	completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
	None, does not apply
2.	Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
	No, does not apply
3.	What kinds of energy conservation features are included in the plans of this proposal? L other proposed measures to reduce or control energy impacts, if any.
	None, does not apply

Environ	mental Health
1. A	re there any environmental health hazards, including exposure to toxic chemicals, risk of
fii	e and explosion, spill or hazardous waste, that could occur as a result of this proposal? If
	o, describe.
\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	lo
a.	
	None, does not apply
b.	Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.
	None, does not apply
C.	Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. None, does not apply

	d.	Describe special emergency services that might be required.
		None, does not apply
	e.	Proposed measures to reduce or control environmental health hazards, if any. None, does not apply
2.	No	ise
	a.	What types of noise exist in the area which may affect your project (for example: traff
		equipment, operation, other)? None, does not apply
	b.	What types and levels of noise would be created by or associated with the project on
		short-term or a long-term basis (for example: traffic, construction, operation, other)?
		Indicate what hours noise would come from the site.
		Installation, Monday through Friday 8AM to 4:30PM
	C.	Proposed measures to reduce or control noise impacts, if any.
		Limit time of installation to Monday through Friday 8AM to 4:30PM

	and Shoreline Uses What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.
	Private single-family residence
2.	Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?
	No
	a. Will the proposal affect or be affected by surrounding working farm or forest land
	a. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how?
	normal business operations, such as oversize equipment access, the application of
3.	normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how? No

	No	
	What is the current zoning classification of the site? R-4	
	What is the current comprehensive plan designation of the site? <u>single family high densited</u>	ity
	If applicable, what is the current shoreline master program designation of the site?	
	Shoreline residential	
	Has any part of the site been classified as a critical area by the city or county? If so, specify.	
	Yes, the shoreline no known critical areas	
	Approximately how many people would reside or work in the completed project? None Approximately how many people would the completed project displace? None	
	Proposed measures to avoid or reduce displacement impacts, if any.	
	None, does not apply	
2.	Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.	
	Adhere to all regulations and guidelines	
	LUC 20.25E Shoreline Ove	erlay [

	forest lands of long-term commercial significance, if any. Adhere to all regulations and guidelines				
	Transito to all regulations and guidelines				
i	ng				
	Approximately how many units would be provided, if any? Indicate whether high, middle,				
	or low-income housing.				
	None, does not apply				
	Approximately how many units, if any, would be eliminated? Indicate whether high, middle				
	or low-income housing.				
	None, does not apply				
	Proposed measures to reduce or control housing impacts, if any.				
	None, does not apply				
	etics				
	What is the tallest height of any proposed structure(s), not including antennas; what is the				
	principal exterior building material(s) proposed?				
	Light-penetrating fabric canopy ~8ft above OHWM				
	What views in the immediate vicinity would be altered or obstructed?				
	None				

	Proposal will comply with all required setbacks
	and Claus
_	and Glare What type of light or glare will the proposal produce? What time of day would it mainly
١.	occur?
	None, does not apply
2.	Could light or glare from the finished project be a safety hazard or interfere with views?
	No, does not apply
3.	What existing off-site sources of light or glare may affect your proposal?
	None, does not apply
4.	Proposed measures to reduce or control light and glare impacts, if any. None, does not apply
	eation What designated and informal recreational opportunities are in the immediate vicinity?
	Water sports
2.	Would the proposed project displace any existing recreational uses? If so, describe.
	No

c and Cultural Preservation Are there any buildings, structures or sites located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers
rears old listed in or eligible for listing in national, state or local preservation registers
ocated on or near the site? If so, specifically describe.
None known
Are there any landmarks, features or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.
None known
Describe the methods used to assess the potential impacts to cultural and historic esources on or near the project site. Examples include consultation with tribes and the lepartment of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.
none

	to resources. Please include plans for the above and any permits that may be required.
	none
ans	portation
1.	Identify public streets and highways serving the site or affected geographic area and
	describe proposed access to the existing street system. Show on site plans, if any.
	Does not apply
2.	Is the site or affected geographic area currently served by public transit? If so, generally
	describe. If not, what is the approximate distance to the nearest transit stop?
	Does not apply
3.	How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?
	None, does not apply
	Trong, does not apply
4.	Will the proposal require any new or improvements to existing roads, streets, pedestrian,
	bicycle or state transportation facilities, not including driveways? If so, generally describe
	(indicate whether public or private).
	No, does not apply

ransportation? If so, generally describe.		
No, does not apply		
How many vehicular trips per day would be generated by the completed project or		
proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or		
ransportation models were used to make these estimates?		
Nill the proposal interfere with, affect or be affected by the movement of agricultural and		
orest products on roads or streets in the area? If so, generally describe.		
No		
Proposed measures to reduce or control transportation impacts, if any.		
None, does not apply		

	c Service
١.	Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally
	describe.
	No, does not apply
2	Proposed measures to reduce or control direct impacts on public services, if any.
۷.	None, does not apply
Jtiliti	ies
1.	Check the utilities currently available at the site:
	☑ Electricity
	☑ natural gas
	☑ water
	☑ refuse service
	☐ telephone
	☑ sanitary sewer
	☐ septic system
	□ other
2.	Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed.
	None, does not apply

The above answers are true and complete to the best of my knowledge. I understand that the lead
agency is relying on them to make its decision.
